## Intro and Contact Information

### Capital Improvement Program (CIP) Public Request Form

The City of Oakland wants to hear from you and your community about changes and improvements you'd like to see to City resources in your neighborhood, such as parks, streets, and buildings. Your input will help us define and prioritize projects which could be eligible to receive funding within the next two years.

Capital projects can look like building new recreation centers or libraries, fixing old fire stations, and making streets safer for walking, biking, or rolling. By filling out this form, you can suggest a capital project idea in your neighborhood that the City of Oakland will review and evaluate to determine whether it may be prioritized for funding in the next two years!

Before filling out this form, we suggest visiting the [CIP Project Dashboard](#) to review existing funded and unfunded capital projects.

The deadline to fill this out for the Fiscal year 2023-2025 CIP cycle is **October 14, 2022 at 11:59 PM**. You will be notified via email regarding the outcome of your submission in Spring 2023.

## Why Should I Complete the Survey?

Participating in the CIP Public Request Form will allow you to provide the City with direct feedback for capital project ideas you value in your neighborhood.

### Contact Information

Please note that all required questions are marked with an asterisk (\*).

What intersection do you live by? (Example: Broadway and 14th St.)\*

**Please note:** This form is intended to collect **capital project** ideas, **not routine maintenance** requests. Routine maintenance requests (like filling a pothole or removing graffiti) should be made by calling 311 or visiting Oak311 online [here](#). Here's how to tell the difference between a capital project and routine maintenance:

**Capital Project:**

- Create an entirely new asset (e.g. a building, sidewalk, park, sewer) or significantly improves an existing one
- Larger projects, typically costing at least \$100,000 and taking multiple years to complete
- Improvements can be used for at least 10 years or more

**Routine Maintenance:**

- Provides maintenance of an existing City asset
- Repairs relatively minor but urgent damage to a City asset

Based on above please select the project type below:\*

- Capital Project
- Routine Maintenance

### **Routine Maintenance – Redirect to Oak311**

Since your project is Routine Maintenance or an emergency, you will now be directed to the Oak311 site. Please complete an Oak311 request.

Alternatively, you can call 311 or (510) 615-5566.

Is your project a request for paving a street?\*

Yes

No

### **Paving - Redirect to More Information**

Street paving is determined through the 5-Year Paving Plan, which uses several criteria including equity to prioritize upcoming streets to be paved. To view the map and schedule of streets that will be paved through the 5-Year Paving Plan (2022-27), click [here](#). For other information on paving, click [here](#).

For this reason, unfortunately the CIP does not accept paving requests. Thank you for your interest in the City of Oakland Capital Improvement Program. For other questions, contact [cip@oaklandca.gov](mailto:cip@oaklandca.gov)

If you would like to submit another project idea, please click [here](#).

### **Speed Bump Question**

Is your project a request for a speed bump?\*

Yes

No

### **Speed Bump Request - Redirect to Portal**

Since your project is a speed bump request, you will now be directed to the Speed Bump Application page. Please review the necessary steps before applying for a speed bump.

Thank you for your interest in the City of Oakland Capital Improvement Program. For other questions, contact [cip@oaklandca.gov](mailto:cip@oaklandca.gov)
